

## **About Us:**

Welcome to SERCOMOIL GROUP, your strategic partner in transforming strategies into innovative, competitive, and sustainable projects. We are the international hub of solutions for the oil and gas industry on the West African coast. Our commitment extends beyond mere service provision; we operate globally, valuing cultural diversity.

## **Mission:**

To collaborate with our clients and transform their strategies into various projects and processes, making them safe, competitive, and sustainable. We aim to be the international hub of solutions for various sectors and companies in the oil and gas sector on the southwest coast of Africa.

## **Vision:**

To become one of the regional references.

## **Values:**

Creativity | Agility | Sustainability | Safety | Diversity | Respect | Regionalism | Adaptability | Technology | Excellence | Humanization

## **Purpose - Why:**

To be the international center for customized solutions for the oil and gas industry on the southwest coast of Africa. We will be the convergence point between companies and services, collaborating with key players for our continuous improvement and community development.

## **Philosophy:**

We conduct business comprehensively, prioritizing our experience and professionalism at all stages, regardless of the situation. We believe that diversity, experience, and culture are key qualities in providing innovative solutions. We seek to introduce a fresh and unique perspective in approaching everyday challenges.

## **What We Offer:**

Through our solutions, we not only solve problems but also promote local development, introduce new technologies, and drive the advancement of the oil and gas industry in West Africa, where our services are offered. We recognize our importance as an integral part of an industry vital for the economic development of our country. Together, we can achieve even greater horizons.

## **Our Slogan:**

ONE TEAM ONE GOAL

SAFETY IS OUR PRIORITY - Protecting people and the environment.

## **Services:**

1. I&E Construction
2. Fire & Gas systems Detection
3. ICCP – Cathodic protection Engineering/Consultancy

### **I&E Construction Services - Instrumentation and Electrical services (Maintenance & Construction):**

We provide a full range of Electrical/Instrument services including engineering design, programming, fabrication, testing, installation, commissioning, project start-up, and maintenance of different power systems, pneumatic systems, hydraulic systems, electrical and logic control systems.

### **Fire & Gas systems and automation:**

We provide fire and gas safety systems services for different sectors, aiming to be a leading company of Fire & Gas in Angola market and SASBU by providing engineering services of electronic fire and gas systems to the oil & gas industry, petrochemical, and refineries.

### **ICCP - Cathodic Protection Engineering:**

We are the Angolan leading company in Cathodic protection services with extensive experience in designing CP systems for various applications, with proven records of our recent services performed with Chevron in Angola and Plus Petrol. We have a strategic business partnership with one of the African leading companies in Cathodic protection Engineering and consultancy, Isinyithi Corrosion Prevention & Protection | Isinyithi Cathodic Protection.

## **Lifting / Elevator and Escalator Inspections:**

SERCOMOIL has a proven track record in the repair/troubleshooting/certification and inspection of Chevron Sanha FPSO lift and some other clients.

## **Staffing Solutions and HR – Manpower:**

We have been operating with highly experienced individuals in this industry and we understand the need for reliable personnel solutions that are cost-effective and efficient. SERCOMOIL is well-established in Angola and opening new offices in Mauritius as well as operational offices in Luanda and satellite office in South Africa - From Payroll Management to the development of Local content plans and expertise in HR related issues, to mass staff recruiting/headhunting to dealing with the UNIONS, to wage negotiations, etc.

## **General Procurement:**

We are a third party in general procurement, supporting companies in material provision for the projects that we lead, and any other request received by our valued clients. Our approach is to make your work easier by taking the procurement constraints into our system and providing the correct products with acceptable lead time and competitive cost.
